study bookcase, writing desk and armchair in light Italian walnut

On the cover back

entrance with original frescoed vaulted ceiling

Volume I

Chiodelli Arte was established in the “heart” of Veneto’s furniture factories, where craftsmanship transformed furniture making into art. What previously was just the passion of a craftsman quickly became a treasure trove of stylistic knowledge and efficiency in production to satisfy the most demanding of tastes.

Refinement, elegance and quality are the values that distinguish all the products in Chiodelli Arte’s name. A mix of qualities recognised and appreciated throughout the world as “Made in Italy”.

Sophisticated connoisseurs can admire the care with which the wood is worked and the high standard of chosen raw materials, together with the fact that the entire production is carried out in Italy by master craftsmen.
